UCSF Newsbreak

Jazz and Blues at UCSF Feb. 19

And now it's time to introduce the members of the band. On drums we have a biochemist, on piano an infectious disease specialist, on guitar a physiologist. Vocals are by a psychiatric assistant and a soon-to-be-world-famed oral biologist.

Granted, that's not your typical band introduction. But, then again, what's coming up on Friday, February 19, won't be your typical evening of music.

For a campus that's known for its health science professionals, expert medical care, innovative teaching, state-of-the-art advances, UCSF is going to have just a little bit more to offer that evening: jazz and blues.

At 8 p.m. in the Millberry Union gym, 25 members of the campus family—faculty, students and staff—will play and sing their hearts out during an evening devoted to our best jazz and blues soloists and ensembles. From blues harp to tenor saxophone, jazz vocal to reflective piano, our UCSF musicians will be there. Will you?

Here's the line up:

Our musicians will include on blues harp—Steve Leonoudakis, Outdoors Unlimited; on guitar—PRO sports' Alan Tower, physiology's Ken Miller, psychiatry's Dale McNiel, and biochemistry's Ray Sunshine; on piano—medicine's John Conte, and on drums—neurosurgery's Phil Weinstein and biochemistry's Mike Brodsky.

Our vocalists will be Jill Bradley, pediatrics; Ernestine Florence, Institute for Health Policy Studies; Bettie Blount and Linda Jackson, LPPI; first-year medical students Alan Bentz, Nathalie Bera, Erica Breneman, Nancy Burnside, Vail Reese and Vaneida White; second-year medical students Janice Cohen, Claudia Condie, Kate Garst, George Georges and Diana Raabe; second-year dental student Anne Huang; Evi Strauss, graduate student in biochemsitry; and Nori Kasahara, graduate student in endocrinology.

So, put away the lab coats, turn off those computers, and put those files away! It's time to "bring it on home!" Just go to the Millberry Union gym at 8 p.m. on Friday, February 19. Plunk down $5 ($3 if you're a student) and be prepared for some tremendous entertainment. For tickets and further information call x62035.

The UCSF Jazz and Blues Festival is co-sponsored by Outdoors Unlimited and Arts & Lectures.

Mikkel Aaland

Comrades in Neurosurgery

UCSF radiologist Grant B. Hieshima gives the "thumbs up" for the work being done by him and Victor Shcheglov (left), chief of endovascular neurosurgery at the Kiev Institute of Neurosurgery. Both men lead the only teams in the world that perform the delicate procedure called "intracranial embolotherapy" to treat difficult aneurysms—weaknesses in the blood vessel wall of the brain. The technique, which allows neuroradiologists to use detachable balloons to plug brain aneurysms, is used on patients who are considered untreatable with surgery or other means.

UCSF retirees (seated) Noel Christian, Veva Winkelstein, Jean Born; (standing) Al Seubert and Gene Sacks.

How Do I Retire? What Do I Do Afterwards?

"You know, when I used to work at UCSF, nearly everyone was baffled about retirement. People just didn't know how to plan to retire."

That quote from Veva Winkelstein, formerly with the Department of Microbiology. pretty much sums up why the UCSF Retirees Association is sponsoring a special seminar on Tuesday, March 1. Entitled "Everything You Always Wanted to Know About Retirement (And are *not* Afraid to Ask)," the seminar/panel discussion will be held from 10:30 a.m. to noon in Toland Hall.

According to coordinators Jean Born, who retired eight years ago after 26 years at UCSF, most of that time spent as a personnel analyst, and Gene Sacks, who retired three years ago after being an associate administrator in the School of Pharmacy for 17 years, the seminar will be a free-form spontaneous discussion.

"We want to address issues confronting people before and after retirement," says Gene.

"I thought I had plenty of interests to keep me busy after retirement. I quickly found out that my interests were solo activities. I had lost some balance. I needed people contact," confides Jean.

The panel discussion will explore such important issues as deciding the best time to retire, planning for your financial security, learning about your UC benefits, making sure your health insurance is adequate, deciding whether or not to change your living arrangements, making the most of your time in retirement and maintaining your sense of identity and self-esteem.

Moderated by Gene, the panel discussion will feature the following candid UCSF retirees: Veva Winkelstein; Al Seubert, Hospital Pharmacy; James Willis, Environmental Services; Noel Christian, Personnel; Miriam Blaustein, Medical Records; and Hans Roeben, Physical Plant.

Any employee attending this free seminar is invited to bring a bag lunch and stay until 1 p.m. to meet the panelists and ask questions.

For further information write to the Pre-Retirement Seminar, c/o UCSF Retirees Association, Faculty/Alumni House, Box 0970, or call Frances Larragueta at 731-3109 or Gene Sacks at 221-2495.

Future Committee Makes Recommendations

The Faculty Committee on the Future of UCSF has prepared recommendations on possible future directions of the campus for Chancellor Krevans reflecting the thinking of a group of distinguished faculty from all four schools, selected from names submitted by their deans.

The Committee's charge from the Chancellor was to discuss the different options and directions the campus might go in order to carry out its mission, without regard to feasibility or economic viability. The report now is being reviewed by the Academic Senate, the Senior Officers, the UCSF Board of Overseers, the UCSF Foundation Trustees and the Staff Advisory Committee.

At the end of the discussion process, it is expected that a formal report incorporating comments from various campus groups will be submitted to the Chancellor and could become part of the planning process for a new campus Long Range Development Plan which has been requested by the Regents.

Oral Arguments Heard on Laurel Heights

The California Supreme Court heard oral arguments from attorneys representing the University of California and those representing the Laurel Heights Improvement Association on Monday, February 8.

The hearings were part of the appeal process by which the University is challenging the Court of Appeal's decision last summer to overturn the San Francisco Superior Court's approval of our Laurel Heights Environmental Impact Report.

The case presents the new Supreme Court with its initial opportunity to interpret and apply provisions of the California Environmental Quality Act, an 18-year-old landmark state law requiring environmental impact reports in advance of major projects in California.

The outcome of our case could provide an important first indication of how much information and analysis the new Court will require in environmental impact reports in the future.

According to UC attorney Ethan Schulman, the Supreme Court will probably take several months following the February 8 oral arguments to issue its decision.

UCSF, Scripps Researchers Find AIDS Virus in Intestines

Researchers at UCSF and Scripps Clinic in La Jolla have established for the first time that the AIDS virus can infect cells in the intestines, and thus is capable of causing directly the chronic diarrhea commonly found in AIDS patients.

It also suggests that the AIDS virus can be transmitted directly to or from cells in the rectum during anal intercourse, without having to enter the bloodstream through a tear in the rectal tissue or skin.

Most of the chronic diarrhea seen in AIDS patients can be traced to infectious agents such as amoeba or cytomegalovirus, but there have always been patients in whom no intestinal parasites could be found.

"Unfortunately, this is not good news for the infected individual," said UCSF virologist Jay A. Levy, MD, who lead the research. "Nevertheless, it explains the chronic diarrhea, dehydration and malabsorption one sees in some AIDS patients with no detectable intestinal infections.

"This is important because we need to know all the tissues the virus infects, in order to develop effective anti-viral therapies."

The findings are reported in the recent issue of the British journal *Lancet* by Levy, molecular biologist Jay A. Nelson, PhD, at Scripps; UCSF pathologist William Margaretten, MD; pathologist Clayton Wiley, MD, from UC-San Diego based in La Jolla; UCSF gastroenterologist Charles E. Reese, MD, and Catherine Reynolds-Kohler from Scripps.

Corporal Holly Choy stands with fellow field training officers Reggie Hamilton (left) and Ray Salvador (right). In the back row is officer Wilbert Rimper with Sergeant Lorin Strackie, director of the FTO program.

Holy Cow! Holly Choy's Really a First!

Holly Choy, a member of our UCSF Police Department since 1983, has become our first female field training officer.

Corporal Choy, as she is formally referred to, is one of four field training officers (FTOs) on campus. As such, Holly and her three comrades—Reggie Hamilton, Ray Salvador and Tim Gray—are responsible for the latest "fresh" Police Academy graduates who want to be officers on this campus. All four have just been upgraded to this FTO position.

Under the direction of Sergeant Lorin Stracke, our field training program is a 14-week intensive "hands on" course where these new campus police officers are graded on virtually everything—from their knowledge of criminal statutes to traffic codes, from routine report writing to a variety of stress responses.

"They are trained one at a time," says Holly, who handles the satellite facilities training aspect of the program. Reggie handles the day shift, Ray the swing shift and Tim the night shift.

"They learn policies, procedures and just the regular police ways of doing things, including how to handle particular situations—thefts, all kinds of arrests, drunk driving as well as trespassing."

When Holly first came to campus she supervised the department's personal safety program. She became a police officer in January 1986 and has been at the UCSF-Laurel Heights site for the last six months.

Over the next few months, four new Police Academy graduates will be part of our field training program: Malcolm Anderson, Stephanie Thorne, Mark Phillips and Wilbert Rimper. Wilbert, who now is in his 11th week of the FTO program, is a former UCSF police dispatcher.

What's New with MELVYL®?

The most recent three-year file of the National Library of Medicine's MEDLINE database now is available on many of the MELVYL terminals in our library. The campus community can do their own online MEDLINE search using these terminals. And it's free! The database includes journal articles and abstracts that appear in *Index Medicus*, *Index to Dental Literature*, and *International Nursing Index*.

The library continues to offer one-hour MELVYL MEDLINE seminars every weekday at 9 a.m. and again at 1 p.m. with additional classes on Wednesdays at 5 p.m. and Saturdays at 1 p.m. Seminar sign-up sheets are posted just inside the main entrance to the library, Room S 257. For further information stop by the library reference desk or call x62337.

Also, UC's MELVYL Online Catalog now is available by dial-up access. You can dial local numbers from San Francisco, Berkeley or Marin from a terminal microcomputer, modem and telephone line to connect to the Catalog. This will connect through the UCSF Computer Center, but you do not have to log on to any of the campus systems, and a Computer Center account is not needed. The MELVYL Catalog is available all but one hour a day, seven days a week. Only the Catalog, not MELVYL MEDLINE, is available for dial-up access at the present time.

For more detailed instructions pick up the MELVYL Catalog Dial-Up information sheet in the information rack in the library.

At the new ATM: From Personnel & Student Services Fred McEnroe and Vice Chancellor Thena Trygstad; and from the credit union Robert LaPointe, board director emeritus; Glover Hughes, one of the founding members; and former president of the board John Malley. Recognize Bob LaPointe? He is the former director of business relations for our Development Office.

Credit Union ATM Now Open on "C" Level

If you noticed some hoopla by the elevators on the Irving Street entrance, "C" Level of the Ambulatory Care Center last week, here's what it was: The grand opening of the automated teller machine service provided by California State Employees' Credit Union (CSECU) No. 2.

This new automated teller, which is part of a nationwide network called "The Exchange," is the first ATM owned and operated by CSECU #2.

A CSECU representative is at the UCSF ATM site every weekday between 8 a.m. and 4 p.m. to answer questions, issue ATM cards to qualifying members and open new accounts. If you stop by, you can pick up the Credit Union newsletter, "California Cable," for detailed information about all Credit Union services.

CSECU does not charge its members to receive the ATM card or to use the machine.

Also for your convenience, the US Postal Service has installed a stamp machine right next to the credit union ATM on the ACC "C" Level.

The Wells Fargo EXPRESS STOP machine and Financial Services Center continues to be located in Millberry Union next to the Central Desk.

Organize a Group for an EMPACT! Event—and Maybe You'll Get Free Tickets

You don't have to wait for EMPACT! to dream up events. You can think up your own whenever you please. Chances are (1) EMPACT! will be happy to sponsor it, provided you have lined up a sufficient number of participants, and (2) you'll get comp tickets for the event.

Take the case of Cynthia Smith from the School of Nursing Office of Student Affairs. She got a bunch of people together who wanted to go see the Warriors play basketball. She called EMPACT! coordinator Laura Barney at x66932, and Laura purchased a block of tickets—enough for Cynthia's group as well as any other interested employees—for a good price. When Laura buys a block of tickets like this, the sponsor usually throws in some comp tickets. So Laura presented these to Cynthia for being the instigator.

Besides the Warriors game on Friday, February 26 (you can check the MU Central Desk to see if there are any tickets), what else is happening with EMPACT! these days?

- There may be tickets left for ACT's "Diamond Lil" on Thursday, February 25; or the Golden Gate Fields outing on Saturday, February 20. Check the Millberry Union Central Desk.
- Develop a healthy neck and back by taking a class for this purpose, taught by experienced physical therapists and tailored to your specific condition and needs. "Your Way to a Healthy Neck and Back": Wednesdays, February 24 through March 30. Call PRO Recreation for details, x61800.
- Don't forget all the discounts available through EMPACT!—including 10% discounts at these places: Geary Cleaners at 5911 Geary; Express Photo at 646 Irving; and Tom Higa Chevron at 798 Stanyan. Say: "I work at UCSF and I'd like the 10% EMPACT! discount." Be prepared to show your UCSF ID.
- EMPACT! could sure use some volunteers, just to be on call to help set up for events, etc. Call x66932 if you can spare a few moments.

These two are smiling because they're going to the Warriors game. Cynthia (above) recruited people from her vanpool to buy tickets—including staff research associate Steve Zippin.

Can't See the Library for the Trees

We're into the middle of February and just as promised our library construction has begun. Of course, it's much too early for the building actually to be constructed, but things *are* happening.

Over the last few weeks, a wooden barricade has been erected to surround the construction zone. As part of that barricade, a garbage enclosure has been built adjacent to the west end of Millberry Union. Up to four debris boxes will be kept there throughout construction for the Union's use.

The covered pedestrian walkway from the west end of Millberry to the corner of Third and Parnassus also has been built. That means if you absolutely have to walk on the north side of Parnassus you can. But you should really try to avoid this area.

If the curbs haven't been repainted in front of Millberry by the time you read this, they very soon will be. In front of the Millberry clock the curb will be yellow, designating a truck loading zone, while the rest of the curbing will be red, including a Muni bus stop.

If it hasn't happened already, the evergreen and eucalyptus trees that are in the construction lot will be removed. These will be replaced with *even better trees* when the library is completed.

Meanwhile, remember that full-page color map of the library construction that ran in the January 16 issue of *Newsbreak*? (You know, the one you now have posted on your office wall!!) The campus is sending out copies of those to the immediate neighborhood alerting them to our construction over the next two years. If you did "lose your copy," give us a call at x61541. We might be able to find another one for you.

Angioplasty Simplified with New Catheter

An improved catheter designed and developed by UCSF cardiologist Paul G. Yock, MD, promises to simplify the job of the physician during procedures to unblock clogged arteries.

"It goes in easier and faster than other catheters," said Yock, associate director of the Cardiac Catheterization Laboratory and assistant professor of medicine.

The procedure, known as coronary angioplasty, uses a balloon which is threaded into an artery clogged by fatty plaque, and then inflated to widen the opening. Some 140,000 people undergo the procedure each year as an alternative to a coronary artery bypass operation.

Yock, who designed the "rapid exchange" balloon catheter and performed all the preliminary animal experiments, did his first human procedure last month as part of recently-begun clinical trials. He and other physicans who have tried it are very enthusiastic, he said, and he expects it to be adopted by many cardiologists in place of current catheters.

At present, angioplasty procedures generally require two physicians to manipulate the balloon catheters, guide wires and other paraphernalia. The new catheter simplifies the process considerably, and for the first time makes it easy for a physician to do an emergency angioplasty single-handedly.

A&PS Update Feb. 17

If you are a member of A&PS (Administrative and Professional Staff Personnel Program) you might be interested in attending a meeting on Wednesday, February 17, from 10 a.m. to noon in Toland Hall.

Chick Francis, assistant vice chancellor for Personnel and Student Services; Julius Katz, manager, Employee Relations; Don Smith, manager, Classification Services and Gayla Tyson, manager, Development & Training, will be on hand to discuss updated information on merit pay, the performance evaluation process and professional development awards.

The meeting is co-sponsored by UCSF ABOG and the UCSF Council. Guidelines now have been set up for A&PS employees, and your comments are needed. See page 6 for details.

UCSF *Newsbreak*

UCSF (ISSN0891-6063) Volume 3, Number 4, February 13-26. Published by the University of California, Third and Parnassus, San Francisco, CA, 23 issues per year—biweekly, except monthly June, July, August and December. Second-class postage paid at San Francisco, CA. Postmaster send address changes to *UCSF Newsbreak*, News & Public Information Services, University of California, San Francisco, 513 Parnassus, Room S 20, San Francisco 94143-0462.

Deadline for the next issue, which will cover February 27-March 11, will be at 11 a.m., Tuesday, February 16. Please send campus news copy to Allen Balderson, Medical Center news to Dawn Finch, and calendar and gazette items to Donald Hickerson, all at Box 0462. Last-minute copy can be taken over the telephone by calling x61541 or x62557.

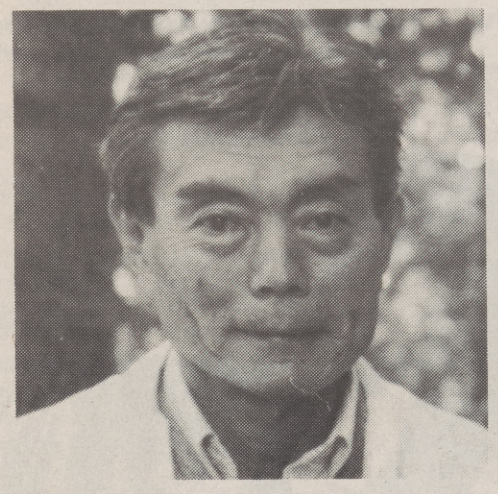
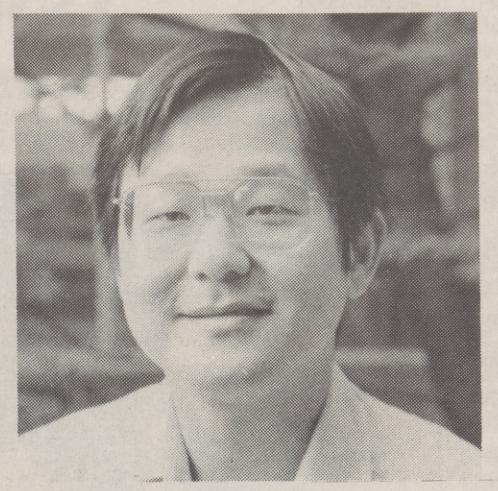
Honors & Awards



Okumoto

Masao Okumoto, ophthalmic microbiology specialist, Proctor Foundation: Awarded a Proctor Medallion, on the occasion of the 40th anniversary of the Proctor Foundation, for his 36 years of service. He also was presented a plaque by the Association of Proctor Fellows.

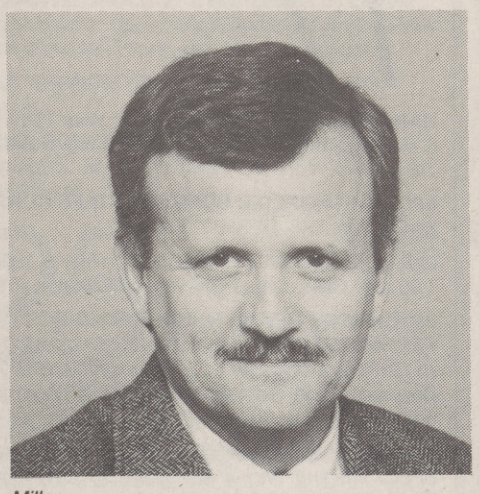
Yuet Wai Kan, professor, medicine, laboratory medicine, biochemistry & biophysics: Elected vice president of the American Society of Hematology. He will become president of the society in 1989.



Yen

Tien-Sze Benedict Yen, assistant professor, pathology: Invited by the Chinese Medical Association to lecture to meetings of pathologists in Beijing, Chengdu and Shanghai between May 9 and May 20. He will speak on "The Use of DNA Probes in Diagnostic Pathology."

Elaine Lonergan, assistant clinical professor, psychiatry: Elected to the board of directors of the American Psychotherapy Association.

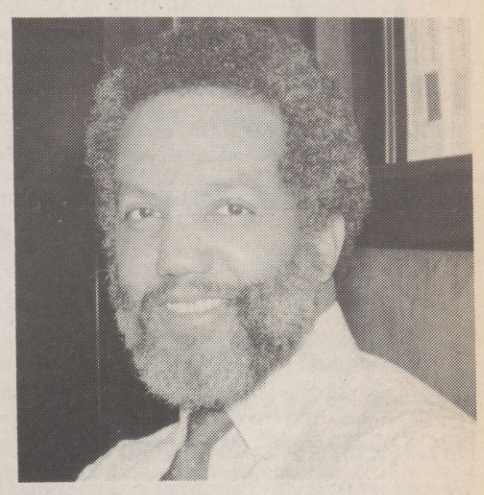


Miller

Ronald D. Miller, professor & chair, anesthesia; professor, pharmacology: Appointed to the Anesthesia/Analgesia Consultation Committee of the National Aeronautics & Space Administration (NASA). He will serve as an advisor to help establish a permanent health maintenance facility in space. He also has been named chair of the Anesthetic and Life Support Drug Advisory Committee of the US Food & Drug Administration.

Merle A. Sande, professor & vice chair, medicine; chief, medical service, SFGH: Delivered the 1988 Alexander Ming Fisher Lecture at the Columbia University College of Physicians & Surgeons, Jan. 13. He spoke on "The Impact of AIDS on the Practice of Medicine."

Appointments



Adams

Michael B. Adams, director, Affirmative Action. Adams was the director of the Affirmative Action/Equal Opportunity Office at the University of Nebraska Medical Center since 1984. Prior to that, he managed the Office of Civil Rights Investigations and Community Relations for the City of Omaha. He was president of the Nebraska Urban League in 1972, is former chair of the Nebraska Advisory Committee to the US Civil Rights Commission and a member of Omaha's Chicano Awareness Center's Advisory Board. Of the several awards he has won, his favorite is the "To Sir With Love" Award presented by the students of Girls' Town for the cross-cultural educational programs he presented there. He replaces Randy Lopez, who was promoted last May to director, Employment & Human Resources Information Systems.

Contracts & Grants

James W. Dilley, Psychiatry, S/M, $296,352, San Francisco City & County, *AIDS Health Project*; $50,000, CA Department of Health Services, *AIDS Health Project - Counselor Training*.

Nejat A. Duzgunes, Cancer Research Institute, S/M, $214,803, NIH National Institute of Allergy and Infectious Diseases, *Kinetics & Mechanisms of Virus-Cell Membrane*.

Jerry C. Griffin, Cardiovascular Research Institute, S/M, $262,198, PPG Biomedical Systems, Inc., *Development of an Automated Electrophysiological Data Analysis System*.

Dieter Cotter Gruenert, Cardiovascular Research Institute, S/M, $99,947, Cystic Fibrosis Foundation, *Studies in Immortal Temperature Sensitive CF Cells*.

John Hopkin, Psychiatry, S/M, $136,696, San Francisco City & County, *AIDS Health Project: State Information & Education*.

Harlan E. Ives, Cardiovascular Research Institute, S/M, $58,186, National Dairy Council, *Role of Dietary Calcium in Regulating the Contractile & Growth Responses of Vascular Smooth Muscle Cells*.

William M. Jenkins, Otolaryngology, S/M, $19,463, National Science Foundation, *Cortical Representational Dynamics in Behaving Adults - Science in Developing Countries - Chile*.

Carol C. Korenbrot, Institute for Health Policy Studies, S/M, $7,500, Wallace Alexander Gerbode Foundation, *Study of Publicly-Funded Abortion in California*.

Matthew La Vail, Ophthalmology, S/M, $40,000, Research to Prevent Blindness, Inc., *Senior Scientific Investigator's Award*.

Charles P. Ordahl, Anatomy, S/M, $40,000, Muscular Dystrophy Association, Inc., *Analysis of an Embryo-Specific Contractile Protein*.

Anthony A. Portale, Pediatrics, S/M, $86,112, National Dairy Council, *Circadian Rhythms in Serum Concentrations of Calcium & Phosphorus in Humans: Possible Disturbances in the Elderly*.

Drummond Rennie, Institute for Health Policy Studies, S/M, $26,000, Rockefeller Foundation, *Proposal for a Program for the Study of the Dissemination of Biomedical Information*.

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Angelo Chualong, hospital clinical laboratory assistant I, clinical labs.

Barton Cohen, senior environmental health & safety technician, environmental health & safety.

Maria Franks, staff research associate I, anesthesia.

Nancy Gibson, administrative nurse I, medicine/Infectious diseases.

Barry Green, senior administrative analyst, School of Medicine/dean's office.

Henry Hom, respiratory therapist II, respiratory care service.

Barbara Hoover-Schultz, administrative analyst, Cardiovascular Research Institute.

James Hulett, publications assistant II, medical center publications.

Amoy Injo, billing assistant II, professional services.

Michelle Murrell, respiratory therapist II, respiratory care service.

Van Nguyen, administrative assistant II, neurology.

Ann Scott, administrative assistant III, contracts and grants.

"Advanced Light Source" Workshop

Construction is expected to begin this fall at Lawrence Berkeley Laboratory on a new synchrotron radiation facility called The Advanced Light Source (ALS).

To be completed in 1992, the new facility will have more powerful synchrotron-based research tools, including an x-ray microscope, which can provide high resolution images of biological material in its native state.

The scientific opportunities that the Advanced Light Source will offer biology and medicine will be the subject of a workshop on Monday and Tuesday, February 22 and 23, at the UCSF-Laurel Heights auditorium. The workshop will focus on a discussion of advanced high resolution x-ray imaging, as well as spectroscopy and scattering applications.

For further information contact UCSF physiologist and stomatologist Stephen Rothman, chair of the workshop organizing committee, at 486-4029.

Forum on Residents' Hours Feb. 16

A public forum on whether residents' hours should be limited and if so, by whom, will be held on Tuesday, February 16, at noon in Cole Hall.

There currently are two bills addressing the residents' issue before the California legislature. The provisions of the bills include that a resident should not work more than 16 consecutive hours (12 in the ER), not more than 72 hours in a week, not more than 1 night every 3 on call and not more than 12 straight days without 2 days off.

The forum is co-sponsored by the UCSF chapter of the American Medical Students Association and the San Francisco Interns and Residents Association.

Fair at Mission Health Center Feb. 27

Free medical examinations and information will be available at a public health fair on Saturday, February 27, from 9 a.m. to 3 p.m. at the Mission Neighborhood Health Center, 240 Shotwell Street, SF.

Sponsored by the Mission Center and Chicanos in Health Education at UCSF, the fair will include information and exhibits on AIDS, TB, diabetes, breast self-examination, CPR and nutrition. The medical exams will include height, weight and blood pressure measurements and hearing, vision, urine and blood tests. Dental examinations also will be offered.

For further information on the fair call 552-3870, x279.

Asian Americans in Higher Education

"Asian Americans in Higher Education: Challenges and Opportunities," the first statewide conference to address issues affecting this population in higher education, will be held Friday to Sunday, February 26 to 28, at the Oakland Airport Hyatt Hotel. For further information call 921-5225.

First J. Englebert Dunphy Lecturer

University of Toronto surgeon Bernard Langer (left) delivered the first annual J. Englebert Dunphy Lecture during Surgery Grand Rounds last Saturday. With him are UCSF surgeons Haile Debas, chair of the department, and Robert Lim, Jr. The lectureship honors the former chair of the department, a specialist in wound healing, who was responsible for establishing the world-renowned Trauma Center at SFGH. Dunphy died in 1981.

AIDS Presentation Available to Departments

The Development and Training Division of the Personnel Department offers AIDS information training to any department. Responding to the individual needs of the department in terms of content and length, the program's general format includes a 90-minute discussion on the definition of the disease, issues of contagion and accommodation in the workplace, high risk behavior and resources for antibody testing.

The presentation, which is by UCSF Rehabilitation Services coordinator Bruce Flynn and a member of the San Francisco AIDS Foundation, includes the showing of the video "An Epidemic of Fear."

The presentation is $50 per hour, plus any fees resulting from video equipment rental, room catering, etc. For further information call Gayla Tyson, x64032.

AIDS Funds Available

The UCSF AIDS Clinical Research Center has project funds available for clinical pilot studies. The Center coordinates and supports campuswide research into this disease through a network of clinics and resources at the VAMC, SFGH and the Parnassus campus. Submit applications by Wednesday, March 30, to John L. Ziegler, director, AIDS Clinical Research Center, VAMC (141). For further information call x68482.

Today/Tomorrow

13 Saturday

UROLOGY GRAND ROUNDS: Joseph Spaulding, Uro. *Pain Management in Cancer Patients.* Perinchery Narayan, Uro. Preceded by D & C reports & selected cases. HSW 300. 8:30-11 a.m.

16 Tuesday

MOBILE MAMMOGRAPHY SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient shopping or downtown locations in San Francisco and remains for a week at a time.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $40. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next two weeks:

Feb. 16-19: Bechtel Corp., 50 Beale St. (Feb. 15 is a holiday.)

Feb. 22-26: Sunset District, on Irving between 25th & 26th Aves.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th Fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Diagnosis & Management of the Facial Pain Patient.* William Donlan, Dent., U Pacific. C 701. 8-10 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Diabetic Ketoacidosis: Current Pathophysiology & Management.* Norman Kretchmer, Ped. Carr Aud., SFGH. 8-9:30 a.m.

NEW EMPLOYEE ORIENTATION: *UCSF Policy, Procedures & Benefits.* Presented every other Tues. All new employees are urged to attend. S 214. 8:30 a.m.-noon. To register call x61645.

OB/GYN & REPRODUCTIVE SCIENCES GRAND ROUNDS: *Management of Stress Incontinence.* Nicolette Horbach, Ob/Gyn. S 1364. 9 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

OBSTETRICS, PEDIATRICS & ANESTHESIOLOGY CONFERENCE: John L. Kitzmiller, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

HEALTH CARE IN CENTRAL AMERICA: *Refugees in Central America: Health in the Camps.* Davida Coady, Pub. Hlth., UCLA. HSW 303. Noon-1 p.m.

BLACK HERITAGE MONTH VIDEO SERIES: *Eyes on the Prize: Ain't Scared of Your Jails (1960-61).* Third in a six-part PBS documentary on the Civil Rights Movement. Toland Hall. Noon-1 p.m.*

OVERWORKED RESIDENTS?

Should Residents' Hours Be Legislated? A panel of attending physicians, residents & nurses will debate the issue. Cole Hall. Noon-1 p.m. (Story on page 2.)*

CURRENT ISSUES IN AGING: *Preventive Health Care in the Elderly.* Joseph Barbaccia, Fam. & Comm. Med. LPPI Aud. 12:10-1 p.m.

INTERNATIONAL FOLK DANCING: Line dancing led by Dean Linscott. No partner needed, beginners welcome. MU Gym. 1:15-2:30 p.m. $2.*

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

17 Wednesday

HAND SURGERY CONFERENCE: *Volar Plate & Boutenierre Injuries.* Lewis Jurist, Surg. S 214. 7-8 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Lourdes Sibayan, coordinator, x61662.

A&PS UPDATE

An overview for A&PS employees of implementation thus far. Discussion of merit pay, performance evaluation & professional development awards. Toland Hall. 10 a.m.-noon. (See story on page 2.)

AIDS OVERVIEW & UPDATE: *AIDS in Heterosexuals & Women.* Constance Wofsy, Med. & Infect. Dis., SFGH. Cole Hall. Noon-1 p.m.

LAS MUJERES: A support group for Latina faculty, staff & students. C 130. Noon.

ANATOMY SEMINAR: *Factors Underlying Loss of Ganglion Cells in Fetal Retina.* Leo Chalupa, Psych., UCD. HSE 1309. Noon.

HISTORICAL PERSPECTIVES IN MEDICINE FILM SERIES: *Human Experimentation: Louis Pasteur & Vaccination.* Film: *Certain Death.* HSW 301. Noon.

BROWN BAG LECTURE SERIES: *Dreams & Symbolism.* Loma K. Flowers, Psychr.; Gayle DeLaney, Assn. for Study of Dreams. HSW 300. Noon. Also telecast live to CED, 3rd Flr. Commons Rm. Videotapes available for viewing in HSE 345, SIMA unit, UCSF Library. Call x64394.*

WOMEN & SPIRITUALITY MEETING: Landberg Center, 1290-5th Ave. Noon-1 p.m. Call 564-3515 for further info.*

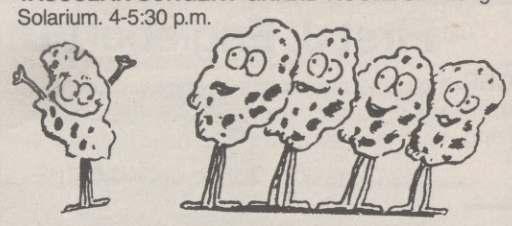
PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

BLACK HERITAGE AWARDS

Award presentation and recognition of UCSF black faculty and researchers, with speaker Joyce Justus, UC assistant senior vice president, academic affairs. Toland Hall. 12:15-1:15 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

VASCULAR SURGERY GRAND ROUNDS. 7 Long Solarium. 4-5:30 p.m.



PHYSIOLOGY SEMINAR: *Gap Junction Channels & Cell-Cell Communication.* Norton B. Gilula, Molec. Bio., Scripps Clinic. HSW 303. 4 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. S 1364. 4:30-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *Lymph Node Pathology I.* Jay Beckstead, Path. HSW 508. 5:15-6:15 p.m.

18 Thursday

LEVY ON AIDS IN AFRICA

MEDICAL GRAND ROUNDS: *AIDS in Africa: A Personal Account.* Jay A. Levy, Med. & CRI. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Carotid-Cavernous Fistula—An Ophthalmic Masquerade: Is This a Radiologist's Disease?* Randall T. Higashida, Radiol. Preceded by case presentations: *Pathology.* S 214. 8:15-10 a.m.

PEDIATRIC GRAND ROUNDS. S 664. 8:30-9:30 a.m.

CONSULTATIVE CRANIOFACIAL PANEL. S 214. 8:30 a.m.-noon.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Current Developments in Monitoring Methods for Occupational Exposure to Mutagenic & Carcinogenic Agents.* Janice Yeager, Pub. Hlth., UCB. HSE 336. 9-10 a.m.

PRIMARY CARE LECTURE SERIES: *Approaches to Alcoholism.* Gerrit Blauvelt, Psychr. A 455. 10 a.m.-noon.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS: *Seizures & Psychological Disturbances in Multiple Sclerosis.* Douglas Goodin, Neuro. S 664. 11:10 a.m.-12:05 p.m.

AIDS OVERVIEW & UPDATE '88: *Dermatological Manifestations.* Richard Odom, Derm. *Ethnic/Minority Issues.* Patricia Evans, Ped. Cole Hall. Noon-1 p.m.

BLACK HERITAGE MONTH VIDEO SERIES: *Eyes on the Prize: No Easy Walk (1962-66).* Fourth in a six-part PBS documentary on the Civil Rights Movement. Toland Hall. Noon-1 p.m.*

EXPLORING WITHIN: THE SPIRITUAL JOURNEY: *Distractions in Meditation.* Francis Geddes, St. John's. Last of a series of six workshops sponsored by the Landberg Center. N 717B. Noon-1 p.m. Call 564-3515.*

NEURO-ONCOLOGY TUMOR BOARD. L 34. 12:30-1:30 p.m.

HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *Hepatocyte Nuclear Factor 1 (HNF-1) & Liver Specific Gene Expression.* Gerald Crabtree, Hemat/Onc. M 1296. 1:30-2:30 p.m.

PROCTOR FOUNDATION RESEARCH SEMINAR: *Herpes Virus-Induced Receptors on Corneal Cells.* Jang O. Oh, Ophthal. & Proctor Fdtn. S 318. 3 p.m.

ACADEMIC SENATE REPRESENTATIVE ASSEMBLY MEETING. Toland Hall. 4 p.m.

BOLDREY LECTURE

Domaines in the Neurosciences: How Effective Is the Bridge Between the Basic & the Applied? Thomas W. Langfitt, Neurosurg., U Pennsylvania. The Sixth Annual Edwin B. Boldrey Lecture. HSW 302. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

UROLOGIC PHYSIOPATHOLOGY CONFERENCE: *Male Pseudohermaphroditism.* Miles Tashima, Uro. M 460. 4:30-6 p.m.

PRIMARY CARE GRAND ROUNDS: *Evaluation of Weakness.* Roger Simon, Neuro. A 455. 4:30 p.m.

RADIOLOGY GRAND ROUNDS: *MR: A New Window in Pediatric Care.* James A. Barkovich, Radiol., Letterman Army Med. Ctr., SF. HSW 301. 5:15-6:15 p.m.

IRAN-CONTRA VIDEO

Shadow Government: The Men Behind the Iran-Contra Scandal. New video from the Christic Institute documenting 20 years of covert activity. Sponsored by campus Committee for Health Rights in Central America. HSW 303. 5:30 p.m.*

COLE HALL CINEMA: *Man Facing Southeast.* Children under 14 $2; UCSF students, seniors, Millberry Union members & employees (Thurs. only) $2.50; general $3. Cole Hall. 5:45 & 8:15 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI Aud. 6 p.m.*

PLASTIC SURGERY CONFERENCE: *Oropharyngeal Cancer.* Alfonso Oliva, Plast. Surg. Toland Hall. 6 p.m.

19 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

LPPI CHILD & ADOLESCENT SERVICE CLINICAL CONFERENCE: *Ritual Abuse of Children.* Social worker Pamela S. Hudson; Sandi Gallant, SFPD. LPPI Aud. 10:10-11:30 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Aspects of Oxidation with Metalloporphyns.* Thomas C. Bruice, Chem., UCSB. S 1364. 11 a.m.

BLACK HERITAGE FILM: *Ethnic Notions.* Followed by discussion with the film's director, Marlon Riggs. Toland Hall. Noon-1 p.m.*

REPRODUCTIVE BIOLOGY SEMINAR: *Regulation of Mammary Epithelial Cell Proliferation In Vitro.* Walter Imagawa, Zoo., UCB. M 1486. Noon.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

COLE HALL CINEMA: *Man Facing Southeast.* Children under 14 $2; UCSF students, seniors & Millberry Union members $2.50; general $3. Cole Hall. 6:30 & 9 p.m.*

JAZZ & BLUES NIGHT

Campus musicians & vocalists in concert. MU Gym. 8 p.m. Tickets $3 UCSF students, $5 all others. (For details see page 1.)*

AP/Wide World

20 Saturday

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

ORTHOPEDIC GRAND ROUNDS. Hlth. Ed. Ctr., Merritt Hospital, Oakland. 8-9 a.m.

22 Monday

SYNCHROTRON WORKSHOP FEB 22-23

Life Sciences at the Advanced Light Source. A workshop on the use of LBL's new synchrotron radiation facility. UCSF-Laurel Heights Aud. (See story page 2.)

OTOLARYNGOLOGY CONFERENCE. S214. 8-10 a.m.

JEWISH WOMEN'S SUPPORT GROUP: For Jewish women working or studying at UCSF. Noon-1 p.m. For location call x65836.

CED BLACK HERITAGE CELEBRATION: Lula McGriff, Pres., SF NAACP is keynote speaker. Other speakers, displays & refreshments. Hartsook Rm. Noon-1:30 p.m.*

OVEREATERS ANONYMOUS MEETING: N 417. 12:10 p.m. Call Janet x61504.*

LABORATORY MEDICINE CORE CURRICULUM: *Hematopoiesis.* Shirley Ebbe, Lab. Med. *Development of Bone Marrow Cells.* Dorothy F. Bainton, Path. L 535. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Public Health Aspects of HIV Serology.* Virologist Judy C. Wilber, SF Dept. Pub. Hlth. L 535. 4-5 p.m.

*Open to the public.

Tear Gas Certification. Thurs., Feb. 25 & Apr. 21. 6-9 p.m. Wed., Mar. 16 & May 18. $10.

Benefits/Personnel

A&PS Employees: Your Comments Solicited

If you're covered by the new A&PS (Administrative and Professional Staff) personnel program, take note: The A&PS subcommittees have been busy drawing up proposals for guidelines to implement the remaining three A&PS policies, "Salary," "Professional Development Award Program," and "Performance Evaluation."

If you remember, the implementation of these three somewhat controversial areas was postponed when the rest of the program went into effect last July 1. These remaining policies will go into effect this July 1, along with the guidelines and "local supplements" developed from the subcommittee proposals.

If you're still reading this, here's where you come into play: The initial draft proposals soon will be circulated to all A&PS employees. Your comments are welcomed. The circular will include instructions for submitting your comments, which will be reviewed before the guidelines and local supplements are drawn up in final form.

Also note: All A&PS employees—as well as those affected by the implementation of these guidelines and local supplements—will be invited to presentations explaining the new language. The plans include A&PS perfomance evaluation training sessions.

You also should have in your keeping a complete copy of the A&PS Policies, which were distributed some time ago. If you are missing yours, you can contact Mary Williams at x62773 about obtaining another.

And should you be interested, Employee Relations Manager Julius Katz has furnished a list of members of the A&PS steering committee and subcommittees:

Committee members:
Michael Bergdorf, Materiel Management
Rachel Bernstein, Affirmative Action
Linda Biddle, School of Pharmacy
Anne Cardy, School of Nursing
Jim Fink, Respiratory Care
Jon Gledhill, Parking Operations
Mary Henry, Labor Relations
Valli McDougle, School of Medicine
Carolyn Roberts, Medicine
Phil Ruttenberg, Accounting
Paula Schultz, Office of Vice Chancellor-Personnel & Student Services
Susan Semonoff, Med Center Administration
Margaret Warren, Animal Care
Susan Williams, Anatomy
Bill Wilson, Student Services

Performance Evaluation Subcommittee:
Julius Katz (chair), Personnel
Karen Dickinson, Oral & Maxillofacial Surgery
Jim Fink, Respiratory Care
Mary Henry, Labor Relations
Roberto Marques, Clinical Labs
Hilary Pritchard, Dentistry
Carolyn Roberts, Medicine
Susan Semonoff, Med Center Administration
Susan Williams, Anatomy

Merit Guideline Subcommittee:
Don Smith (chair), Personnel
Mike Bergdorf, Materiel Management
Linda Biddle, School of Pharmacy
Joe Bluford, Resource Managment
Gladys Corn, Epidemiology and International Health
Jane Hirsch, Nursing Service
Valli McDougle, School of Medicine
Phil Ruttenberg, Accounting
Mark Singer, Anatomy
Chris Slaboszewicz, Biochemistry/Biophysics
Margaret Warren, Animal Care

Professional Development Award Subcommittee:
Gayla Tyson (chair), Personnel
Anne Marie Benfatto, Medicine
Anne Cardy, School of Nursing
Jean Cornely, Urology
Jon Gledhill, Parking
Gary Low, Clinical Labs
Valli McDougle, School of Medicine
John Proesch, Pediatrics

More Frequently Asked Payroll Questions

There's no end to the questions people call and ask Campus Payroll! Maybe if people carefully follow this column, they no longer will need to call Payroll so frequently. Two more from manager Phil Ruttenberg:

When will my automatic deposit (SurePay) be available in the bank?

Surepay Automatic Deposit will be effective approximately 25 days from the date the Pay Disposition Request Form is received by the Payroll Office. This initial period is used by the banking system to verify your account number.

Payments made to you during this initial waiting period will be made in the form of a paycheck, which will be sent to your earnings statement address.

Once SurePay Automatic Deposit is established and in force, the funds will be available in your financial institution on payday.

If you change financial institutions or change your account number, a new 25-day waiting period is invoked.

How do I complete the W-4 form to arrive at the correct number of allowances to claim for federal and state withholding purposes?

The Payroll Office is not qualified to answer this question. You should consult a tax accountant.

A&PS Update Feb. 17

If you want the full scoop on the A&PS program to date, attend the meeting sponsored by the UCSF Council and UCSF ABOG on Wednesday, February 17, from 10 a.m. to noon in Toland Hall. Chick Francis, assistant vice chancellor, personnel and student services, and the chairs of the A&PS subcommittees will (1) discuss merit pay, the performance evaluation process, and professional development awards; (2) present an overview of A&PS implementation to date; and (3) answer questions.

How are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of December 31):

- *Accumulation Unit Values*

Equity Fund: $47.001 (7.25%)*
Bond Fund: $30.303 (-3.51%)*

- *Monthly Factors*

Savings Fund: .007230 (9.03%)**
Money Market Fund: .0067 (8.38%)**
GIC Fund: .0077 (9.67%)**

*Percentages represent total percentage increase over previous 12-month period.

**Percentages represent the most recent returns expressed as an annualized rate. The money market and savings rates change monthly.

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and in the main lobby of Moffitt Hospital.

Health Care & Allied Services

Nurse Practitioner II (NX). ACC: General Medicine Practice II. #H-C53520. $16.83-$20.29/Hr. Filing Deadline: 2/20/88.

Physician's Assistant. Renal Center - SFGH. #M-L23890. $2,860-$3,446. Filing Deadline: 2/17/88.

Hospital Lab. Tech. II (EX). Pediatrics. #M-W54782. $2,389-$2,880. Filing Deadline: 2/17/88.

Hospital Unit Service Coordinator III (EX). Nursing. $9.33-$11.09/Hr. Open Until Filled. Apply to: Ms. Jan Collins.

Sciences, Laboratory & Allied Services

Staff Research Associate II. Metabolic Research Unit. #M-F51487. $2,153-$2,590. Filing Deadline: 2/17/88.

Staff Research Associate II/I. School/Department of Pharmacy. #V-S54579.$2,153-$2,590 Or $1,883-$2,256. Open Until Filled.

Staff Research Associate I. CRI. #M-F51487. $1,883-$2,256. Filing Deadline: 2/17/88.

Staff Research Associate I. CVRI. #M-L52533. $1,883-$2,256. Filing Deadline: 2/17/88.

Staff Research Associate I. Radiology. #H-P45517. $1,883-$2,256. Filing Deadline: 2/17/88.

Clerical & Allied Services

Administrative Assistant III - Supervisory. Pediatrics- Child Study Unit. #M-W55937. $2,099-$2,524. Filing Deadline: 2/17/88.

Research Project Assistant III - Supervisory. Medicine. #M-C45616. $12.06-$14.51/Hr. Filing Deadline: 2/24/88.

Administrative Assistant II (CX). H&EPC Division - Laurel Heights Campus. #V-H56494. $1,837-$2,192. Filing Deadline: 2/17/88.

Administrative Assistant II (CX). Medicine - VAMC. #M-C55722. $1,837-$2,192. Filing Deadline: 2/17/88.

Administrative Assistant II (CX). Medicine/Occupational Health - SFGH. #M-C49067. $1,837-$2,192. Open Until Filled.

Administrative Assistant II (CX). Neurology. #M-C41445. $1,837-$2,192. Filing Deadline: 2/17/88.

Administrative Assistant II (CX). Oral & Maxillofacial Surgery. #V-B55113. $1,837-$2,192. Filing Deadline: 2/17/88.

Administrative Assistant II (CX). Otolaryngology. #M-F31309. $1,837-$2,192. Filing Deadline: 2/17/88.

Administrative Assistant II (CX). School of Pharmacy: Pharmaceutical Chem. - Laurel Heights Campus. #V-S55416. $1,837-$2,192. Open Until Filled.

Utilization Review Assistant II (CX). Utilization Review. #H-P24887. $1,837-$2,192. Filing Deadline: 2/17/88.

Administrative Assistant I (CX). CVRI. #M-L53170. $1,618-$1,917. Open Until Filled.

Administrative Assistant I (CX). Personnel/Employee Rehab. - 1350 7th Ave. #V-S26493. $1,618-$1,917. Open Until Filled.

Principal Typist Clerk (CX). Medicine/Infectious Diseases. #M-C61144. $1,618-$1,917. Open Until Filled.

Senior Word Processing Specialist (CX). LPPI. #V-W56060. $1,618-$1,917. Open Until Filled.

Computer Operations

Computer Operator (TX). Computer Center. #V-H52762. $1,693-$2,010. Filing Deadline: 2/17/88.

Administrative/ Professional

Computer Resources Manager III (Director, Computer Services). Reports to: Associate Director, Medical Center Administration - Hospital Information Systems. $52,000-$78,000. Filing Deadline: 3/2/88. Apply to: Ms. Catherine Pedersen.

Principal Administrative Analyst I. Public Service Programs. #V-B55594. $3,119-$3,765. Filing Deadline: 2/17/88.

Engineering

Associate EH&S Tech.. EH&S. - Various Work Sites. #V-B47150. $2,982-$3,591. Filing Deadline: 2/17/88.

Technical & Operative Services

Electronics Tech. Or Sr. Electronics Tech. (EX). Biomedical Engineering - SFGH. #M-C57193. $2,339-$2,683 Or $2,560-$3,091. Filing Deadline: 2/17/88.

Psychiatric Inpatient Nursing

For more information on this position call Judith Rowe, x67360.

Clinical Nurse II. Children's Unit. $15.32-17.63/hr.

Inpatient Nursing

For more information on the following positions, call nurse recruiter Lynda Purves, x62252.

Clinical Nurse IV. Critical Care. $3045-3675/mo.

Clinical Nurse IV. Neonatology. $3045-3675/mo.

Clinical Nurse II. Acute Medicine. $15.32-17.63/hr.

Clinical Nurse II. Neurosurgery/Neurology. $15.32-17.63/hr.

Clinical Nurse II. Pediatric Intensive Care Unit. $15.32-17.63/hr.

Clinical Nurse II. Neonatal ICU/Recovery Nursery. $15.32-17.63/hr.

Clinical Nurse II. Gyn/Urol/ENT Surgery. $15.32-17.63/hr.

Clinical Nurse II. Medicine/Cardiology. $15.32-17.63/hr.

Clinical Nurse II. General Adult Surgery. $15.32-17.63/hr.

Clinical Nurse II. Ortho/Micro Surgery. $15.32-17.63/hr.

Clinical Nurse II. Perinatal Services. $15.32-17.63/hr.

Clinical Nurse II. Coronary Care Unit. $15.32-17.63/hr.

Clinical Nurse II. Neurosurgery. $15.32-17.63/hr.

Clinical Nurse II. Critical Care Float. $15.32-17.63/hr.

Clinical Nurse II. Pediatric Medicine. $15.32-17.63/hr.

Clinical Nurse II. Cardiovascular/Thoracic/Eye Surgery. $15.32-17.63/hr.

Clinical Nurse II. Kidney Transplant Unit. $15.32-17.63/hr.

Clinical Nurse II. Pediatric/Neonatal Acute Float. $15.32-17.63/hr.

Clinical Nurse II. Adult Oncology/Hematology/BMT Clinic. $15.32-17.63/hr.

Clinical Nurse II. Pediatric ICN Critical Care Float. $15.32-17.63/hr.

Clinical Nurse II. Pediatric Clinical Research Center. $15.32-17.63/hr.

Clinical Nurse II. Cardiovascular Special Care Unit. $15.32-17.63/hr.

Clinical Nurse II. Adult Intensive Care Unit. $15.32-17.63/hr.

Clinical Nurse II. Radiology/Oncology. $15.32-17.63/hr.

For Valentine's Day, Buy Yourself The Magic Mug—It's a Sweet Deal

Yes, here's something that's better than chocolate. Buy one of these big 18-ounce dishwasher-proof, hard-to-break and easy-to-like mugs for $2, and all kinds of wonderful things will happen:

- You'll get a coupon to fill it up free in the Moffitt cafeterias with coffee, tea or soda.
- Thereafter, every time you fill it up with the above drinks in the Moffitt cafeterias, you'll pay only 45 cents. Considering that 35 cents usually buys you eight ounces, you're getting more than twice as much for only 10 cents more. You also can fill up your mug with juice or milk for a reduced price, although not so reduced as the former. You'll have to check with the cashier for the exact price.
- Right on the mug it is written: "For Our Employees with Appreciation—UCSF." Every time you feel you deserve a little appreciation, you can read your mug.
- For every mug you buy for $2, a dollar will go to the Auxiliary, to benefit the good deeds they do in the Medical Center.

No doubt you find it hard to believe that such a bargain truly exists, but if you take your $2 to the Golden Gate Room, you can purchase your mug either at the table set up for this purpose during the lunch hour, or by buying a ticket from the cashier and presenting it to the counter person.

Who may buy these mugs? Well, the program is sponsored by the Medical Center, but anybody can buy one. And should you want to buy them for your friends and valentines, here's where the bargain gets even better: For a limited time, buy five mugs and get the sixth one free.

On the day we took the mug shot, it also happened to be one of Linda Carucci's initial days on the job as breakfast/lunch cafeteria supervisor. It worked out conveniently to have Linda (left) in the photo along with Rosalind Bell—who is leaving the job that Linda is taking—and thereby take advantage of the opportunity to introduce the one, and bid farewell to the other. (And still show you what the mugs look like.)

So, Linda Carucci, Tell Us A Little Bit About Yourself

For the most part, when you ask people about their background, you're lucky if you get their line of work, and maybe something about their previous job. New cafeteria supervisor Linda Carucci immediately distinguished herself. The background she described is several layers thick.

She is the former private chef for the Peter Haas family, a name linked to the Levi Strauss Company. They own it. And yes, Linda lived with Mr. and Mrs. Haas in their San Francisco mansion, and cooked for them and their two children—not to mention former Mayor Feinstein, and the Getty's, and the Belli's, and the many other SF luminaries who came to dinner during the year that Linda worked there.

You're probably wondering how she got that job. Well, she has a master's degree in education, and a few years ago she was associate dean of students at Occidental College in Los Angeles. Then she did an about face on her career, moved to San Francisco, and enrolled in the California Culinary Academy. She graduated in 1984, went to Europe, studied French, came back to San Francisco, heard about the opportunity at the Haas house, and took it.

Presently, another opportunity came her way: A restaurant called "Barnaby's by the Bay," in Inverness—a small town on the Point Reyes National Seashore—needed a general manager. They wanted someone who could turn the struggling restaurant around—someone who could hire a chef, run a staff, and step into the kitchen to make a Bernaise sauce if need be. She could, and she did, and Barnaby's by the Bay is now back on its feet.

So what brought her back to the metropolis and to us? What we forgot to tell you is that just when she was all set to leave for Inverness, she met this guy. His name is Allen Rehmke and he's a chemical engineer. It was love at first sight. (This is the Valentine's issue of *Medsounds*, remember.) They got married in October. And since there were more opportunities for a chef in San Francisco than a chemical engineer in Inverness, Linda moved back. (No sacrifice, she says—she had missed civilization.)

She immediately set about free-lancing as a cooking instructor and caterer—and filled in here during the holidays in our catering department. This last fact can help you figure out how she came to be the new supervisor, taking over the position that Rosalind Bell is leaving. Meanwhile, we'll tell you *why* Rosalind is leaving.

Rosalind Bell, Why Are You Leaving?

Linda's story may be a hard act to follow, but see what you think: Rosalind's is pretty good, too.

After two years here, first as deli manager in Millberry Union and lately as cafeteria supervisor in the Med Center, she's leaving to be assistant director for the production, "Resurrection of Lady Lester," at the Lorraine Hansberry Theatre in San Francisco. She's also working on writing three plays of her own, including one—"Ms. Luvinia Thibedoux"—that is finished to the point of the first draft.

"Ms. Thibedoux," says Rosalind, "is old. But she's a Ms., not a Mrs., because she's hip. She's an old Creole lady from New Orleans who's out to prove to the world that old Creoles can do more than cook."

Rosalind is herself from New Orleans—not originally, but that's where she lived before she moved here. And that's where she finally acted upon what she describes as a lifetime dormant interest in acting: She took acting lessons.

A lot happened in between—she owned a catering business; she worked for a famous architect; she dabbled with photo-journalism—but we haven't got all the space in the world here, so we'll skip a few chapters: She moved to San Francisco. She enrolled in an acting course at ACT, signed on with a local agency, and started starring in "industrials" (in-house industrial films). Somewhere in there she got the job at Millberry Union for a mainstay, which evolved into the supervisor role she's now leaving.

She says she got to that point where it was time to pursue the writing and the acting—and now the directing—full-time.

"I hate to leave," she says, and points to a big shopping bag full of presents from a doting cafeteria staff. She opens a card, and there's a $100 bill inside, made up of $1 and $2 contributions from dozens of people. "They said it's to fall back on when I'm a starving artist."

Laundry All Set for Move to Oyster Point

If you were around the week of January 25, maybe you caught on that this was "Laundry and Linen Services Week" in the Med Center. Maybe you saw one of the balloons, buttons or flyers that were floating around, all inscribed "UCSF Linen Service Makes a Clean Move." Maybe you even made it to the high point of the celebration, an open house of the brand new laundry facility at Oyster Point.

For those who were able to attend, tell us: Were you not astounded by the *magnitude* of the place? Did they tell you you were looking at 38,000 square feet? Have you ever seen such enormous equipment?

And wasn't it great the way they just punch in a code on the computer, load the laundry, and away it goes, from wash to dry to press—with soap, water, heat and everything perfectly controlled?

If you've visited the laundry's current location behind Long Hospital—on the third and fourth floors of the Laundry/Storehouse building—then you get a sense of what this move means: It's a blessing.

They've been in their current location for 35 years, and taking care of the ever-growing laundry and linen needs of the entire campus was becoming an increasingly difficult task in this cramped, antiquated facility.

The new facility, of course, will be a totally different story, as you observed during the open house.

If you missed the open house, and now you wish like anything you could see this amazing new place, stay tuned to *Medsounds*. In a forthcoming issue we'll provide a complete armchair photo tour.

How About: "Night of Magic" at the Meridien with the 49ers and Rex Allen's Big Band

In addition to your favorite football team and big band music, the agenda includes a silent auction and cocktail party, dinner, dancing, a live auction, more dancing, and a famous magician whose exact identity will remain for now a surprise.

Of course, the evening will be much more fun if you are there, too, sweeping about the dance floor in your optional black-tie attire. Here's how to arrange your attendance: Set aside Saturday evening, February 27, 6:30 to midnight; and then call Meg Porter at the Koret Family House, 753-3505, for the details on purchasing tickets. The donation is $75 per person.

All the proceeds will benefit Family House, which provides temporary residence for families of children receiving cancer treatment at the Med Center. The organization sponsors both the Koret Family House at 50 Irving Street and the McKesson Family House Annex in our Children's Medical Center.

P.S. Some of the luxuries up for auction include a Royal Viking Line cruise, bed and breakfast in Sherman Oaks with a flight to Catalina for lunch, a night at the Fairmont with tickets to the Venetian Room, jazz in your home, a week at a cabin in Lake Tahoe, and a great selection of art and antiques.

Valentine's Special from the Gift Shop

The flier says: "Win a $25 gift certificate to purchase merchandise to your heart's content." That's the prize for the Beartique's February drawing. As you may not know, for each $5 purchase you make at the Beartique, you get a chance at winning the drawing at the end of the month. They do this every month, so keep patronizing the gift shop, and you may end up a big winner someday.

Monica Brown Knit a Maroon Sweater for Kwang Song—and Now He's Tickled Pink

Mikkel Aaland

If you remember, Environmental Services' Kwang Song won a particularly wonderful prize in the United Way drawing: Monica Brown from the Clinical Labs pledged to knit him a sweater. Right after the drawing, Monica started knitting; and last week she presented him with the finished product.

Of course, you can't wait to know—does it fit?

Yes, it fits fine. Kwang tried it on following the photo session, and he looked stunning. In case you wish you had a sweater like this, and you're not expecting to win any prizes, talk to Monica: She also knits as a side business.

Husband of First Liver Transplant Patient: "You'll Be Our Friends for Life"

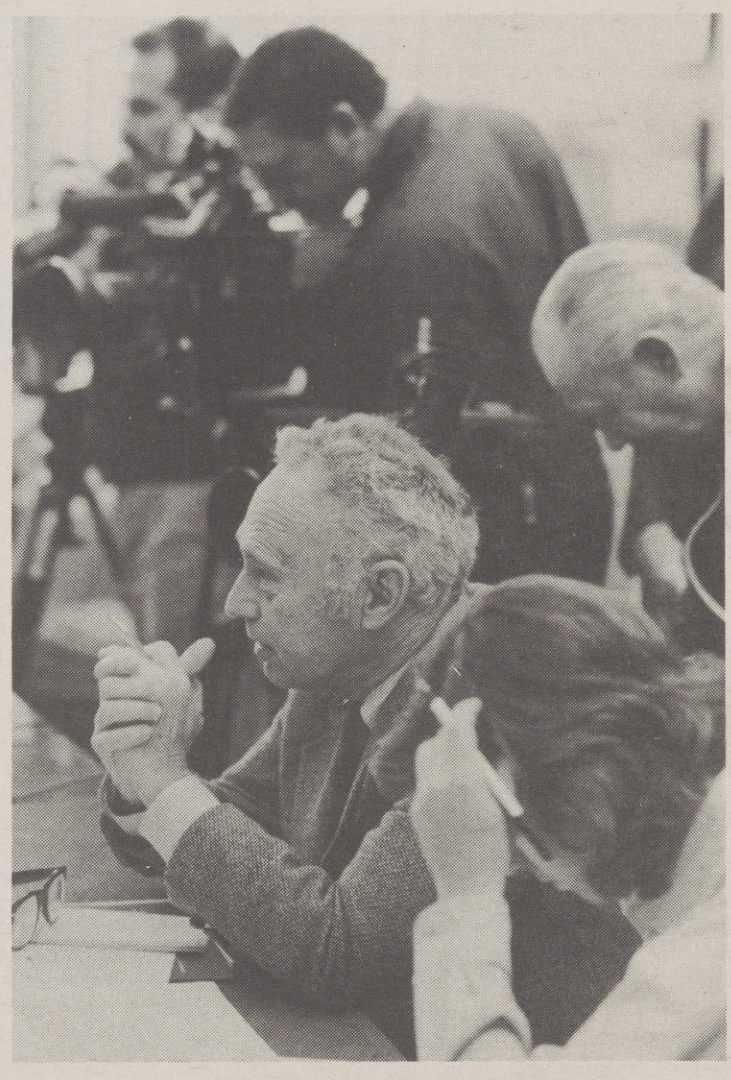
On January 1, if you remember from a few *Medsounds* ago, our transplant program expanded to include liver transplantation.

Last week, Shirley Nebeker, a 53-year mother of eight from Oakland who suffered from chronic active hepatitis, became the first patient to undergo liver transplant surgery in the new program—which also made her the first to undergo liver transplant surgery in the Bay Area.

The following day, while Shirley was in the ICU in the first stages of recovery, her husband Bud reflected on the family's experience: "One of the things that has helped tremendously is that we've all been so well prepared. I give Dr. Ascher (Nancy Ascher, chief of the liver transplant service) a lot of credit for letting us know exactly what to expect every step of the way.

"It's the *security* the staff has given us that makes the difference. Take Dorrie Kamp, for instance—the social worker—she literally has taken the whole family under her wing. 'Pretend I'm your Yiddish mother,' she told us.

"As we go through this experience and meet the staff involved—first the doctors and social workers, and now the nursing staff—I feel bonds forming. I think we're making lifetime friends."



Mikkel Aaland

***Meeting the Press**—Following the surgery, Bud Nebeker (left, center) and key members of the liver transplant program took part in a press conference. With Mr. Nebeker are Drs. John Lake, Nancy Ascher, John Roberts and Haile Debas, chief of surgery. Across the table are Lisa Krieger from the* Examiner, *Dave Perlman from the* Chronicle *and other members of the Bay Area media.*

You and Your Friends Are Cordially Invited to Visit the New Blood Bank Donor Room

On Tuesday, February 16, the new Blood Bank Donor Room in Room M 80 officially opens. What's it all about? Program manager Diana Johnson tells us:

What is the Blood Bank Donor Room?

It's a blood drawing facility located on campus, serving the entire campus community—patients, families, staff, faculty, and students.

Where is it?

It's in Moffitt 80—in the basement right at the foot of the stairs below the gift shop.

Why did we start this program?

One reason is that we have a tremendous ongoing need for blood and blood products—particularly because of our extensive and growing oncology and transplant programs. This new program, we hope, will help supplement the existing blood supplies.

Other reasons?

Autologous donation—when a patient gives blood specifically for his or her own use—has become increasingly widespread. So has directed donation—when friends or relatives donate blood for a specific patient. The new program will provide a convenient means for patients and families to make these types of blood donations.

Are on-site blood donor rooms a trend in hospitals these days?

Mikkel Aaland

Yes, refreshments are always a part of donating blood. Your hostesses: Blood Bank supervisor Edith Bossom; and Elizabeth Donegan, Diana Johnson, and newly hired Jean Katz—the respective medical director, program manager and supervisor for the new donor room.

Many hospitals have set up programs for autologous donation. This program is different from some of the other programs that exist because we're actually handling four different types of donations. Besides autologous and directed donations, we're soliciting regular volunteer donations for banking; as well as a process called "platelet pheresis," in which only the platelets are removed from the blood. Platelets are small cells necessary to stop bleeding when blood vessels or organs are damaged. They are needed when a large amount of blood is lost during surgery; or for patients who are unable to produce their own platelets. (For example, patients with leukemia, bone marrow malfunctions and other serious illnesses.)

How often can a person give blood?

Every eight weeks. One can undergo platelet pheresis more often, since platelets are replaced very quickly.

How does a person go about giving blood in the new room?

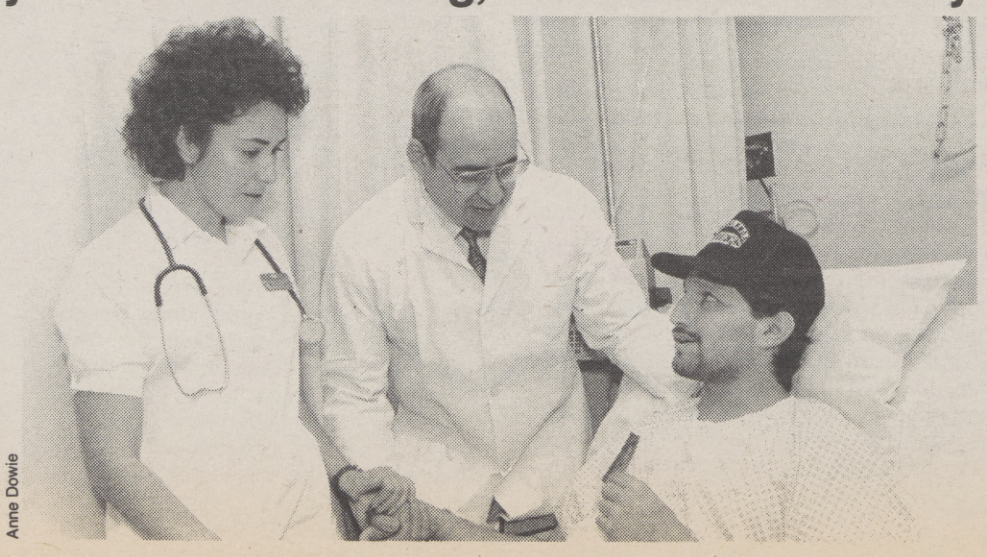
Just call x66989 and make an appointment. The hours are 10 a.m. to 8 p.m. Monday through Friday and 10 a.m. to 3 p.m. on Saturdays. Most employees probably don't realize there are provisions in staff personnel policies for giving blood. Medical Center employees are allowed two hours off for this purpose.

3000th KTU Patient Says: Oh What a Feeling, to Have a New Kidney

When Adolph Rodarte of San Jose received his new kidney in January, he set a record: His procedure was the *3000th* kidney transplant performed here. He says he's feeling fine. In fact, he felt a big difference in his health the first day after surgery. "I woke up with a lot of energy for a change."

You may be surprised to learn that our Kidney Transplant Service is the largest program of its kind in world, and the Medical Center at UCSF is the first to reach this incredible number of transplants performed. The service began in 1964, and many recipients now have had functioning kidneys more than 20 years.

Naturally this picture would not be complete without Kidney Transplant Service chief Oscar Salvatierra, KTU staff representative Kathleen Kern, and—look carefully—Adolph's four-year-old son.



Anne Dowie

Through Rain, Sleet & Hail, the Volunteers Will Deliver the Mail

Not that we have any rain, sleet or hail in the Medical Center, but the point is, beginning Monday, February 22, members of Volunteer Services will be personally delivering mail to patients.

Instead of big bundles of mail being delivered to the nursing stations, the volunteers will pick up and sort the mail, and then deliver it directly. Should patients not be found at the address on the envelope, the volunteers will do a little sleuth work to locate them, and make sure they get their mail.

The volunteer mail carriers will be on duty Monday through Friday, 1 to 4 p.m. They'll be checking in daily at the nursing station for any restrictions.
